

Mike Lara
Director

COUNTY OF RIVERSIDE BUILDING AND SAFETY DEPARTMENT

RESIDENTIAL SWIMMING POOL REQUIREMENTS PRIOR TO PERMIT ISSUANCE

- Provide two stamped, and signed engineered pool construction plans to comply with current California State adopted Building Codes and Riverside County Ordinances.
- Additional construction such as slides, raised rock coping, grottos, etc...shall be provided with stamped, signed construction details.
- Pool construction plans shall be highlighted for soil conditions and applicable construction details.
- The swimming pool plan submittal shall include three site plans drawn to scale. The site plans shall include:
 - a) All structure locations on the property.
 - b) Proposed pool location
 - c) Pool equipment location.
 - d) Pool fencing location and fencing type complying with Riverside County requirements.
 - e) All distances shall be indicated from property lines, existing / proposed structures, and sewage disposal systems.
- Provide the signed pool fence agreement letter.
- Where the permit applicant is not the property owner or California licensed contractor, a signed authorization letter from the property owner or California licensed contractor is required with the name of the authorized person(s) identified.
